

**March 2009**

## **You've Got Mail!**

We are proud to introduce the new PrePass Update email newsletter!

In the past we have sent out regular updates by fax, but our ability to reach many of our customers and partners this way was problematic, especially since it used a lot of paper. By transitioning to an email format we can reach a wider audience, provide more timely information about PrePass, and hopefully save a few trees.

We will continue to send this newsletter via both fax and email for several months, but will eventually move to email only. If you wish to subscribe to our email distribution, please send your name, PrePass account number, and the email address where you would like this newsletter sent to [PrePassMarketing@acs-inc.com](mailto:PrePassMarketing@acs-inc.com). Because we value your privacy, we promise that we will never share your email or personal information with anyone.

## **PrePass At Upcoming TCA Conference**

Thousands of truckload executives will be converging in Kissimmee, Florida next week for the Truckload Carriers Association (TCA) Annual Conference. Along with the workshops and networking opportunities happening at this event, there is also an exhibition to show off transportation industry products and services, and PrePass will be there!

If you happen to be at the event, please stop by our booth, pick up your free gift, and have your picture taken at our new **Postcards From The Road** attraction.

## **Have You Tried The New PrePass.com?**

The PrePass website has many new tools to help you manage your PrePass account more effectively. Just go to [www.PrePass.com](http://www.PrePass.com), select "My PrePass" from the navigation bar, and choose "I am an existing PrePass customer" to set up your login.

Answer some simple questions to complete your online profile and you will be able to view your bypass activity, reassign transponders, pay your bill, and perform other account maintenance tasks online. This is one of many ways we are making PrePass faster and more responsive, so that you can save even more time, money and fuel!
