UPDATE

October 2006

PrePass Teams With BESTPASS

PrePass and BESTPASS have joined forces to offer a special service to carriers who have less than five trucks. These smaller carriers had previously been unable to enroll in our PrePass^{Plus} interoperability program, but through this partnership they can finally enjoy the benefits of using a single transponder to access both PrePass weigh station bypassing sites and E-ZPass electronic toll collection facilities.

BESTPASS is a subsidiary of the New York State Motor Truck Association and is designed by and for truckers. The system offers increased savings for E-ZPass tolls on the Pennsylvania Turnpike, New York State Thruway, and Maryland Toll Bridges. "Each day carriers waste valuable time and money at toll booths and weigh stations. Carriers still paying cash for tolls may be spending up to 30% more than necessary, as well as wasting time and fuel," according to Bill Joyce, CEO of BESTPASS.

Carriers wanting more information may contact BESTPASS at 518-458-9696 or PrePass at 1-800-773-7277.

PrePass Is Everywhere

You may have met some PrePass staff at a truck stop in Ohio last week, giving away prizes to promote our new BESTPASS partnership. You might have seen our friendly faces mixed in among the crowd in last June's national convoy celebrating the 50th Anniversary of America's Interstate Highway System. Maybe you even saw us at one of the nearly 15 state trucking association conferences we attended last month. If you have not spotted us yet, keep your eyes open. PrePass will be visiting an event near you soon!

Appreciating Excellence

Thank you to all of the drivers who shared food and fun with us during our Driver Appreciation Events in California this past August. Roughly 900 drivers stopped by; making these the most successful events we have had in the state so far. Thanks for spending some of your valuable time with us. We hope to see you again in the future!

Our sincere gratitude also goes out to the California Highway Patrol; the California Trucking Association; and the staff of the Gilroy, Mission Grade, and Cordelia inspection facilities for hosting these events and helping make them such a success.

Unused Transponders?

Per the PrePass Terms and Conditions, your account may be charged a \$100 fee for each unassigned transponder not re-issued or returned in 30 days. Please return any unused transponders to:

PrePass Device Returns

510 Parkland Drive

Sandy, UT 84070

We recommend using a traceable shipping method, insuring the package appropriately, and retaining proof of delivery for your records.

Notice to Livestock Haulers

In **Alabama, Arizona, Utah, and Wyoming**, vehicles hauling livestock must pull in to all PrePass facilities, even if they get a green light on their transponder. These states have specified that they want all vehicles hauling livestock to pull in to be inspected.

The complete list of bypassing restrictions can be found in the "Bypass Restrictions by State" section of your PrePass Driver Guide. Failure to adhere to these restrictions may subject you to fines or other penalties. You may download or print copies of the guide from our website at www.PrePass.com.

For more information contact the PrePass Service Center at:

1-800-PrePass (773-7277) or www.prepass.com
